### **GERMAN SOCIALISTS** DEFY KAISER, FAVOR **BIG STRIKE MAY 1**

AMSTERDAM, April 28 -Directly contrary to the government's appeals, the socialist minorities in the Reichstag and the Prussian Landtag have adopted resolutions favoring a general strike on May day, according to Berlin dispatches today.

chiefs, who realize the growing discontent in Germany, manifest in vari ous strikes, in Socialistic peace pro paganda, in dissatisfaction over the shrinking rations, in agitation fo greater participation in governmenta

affairs by the people.

Information received here from Germany via Holland indicated thi condition in the Central empire today Dispatches now indicate that Germany is opposing the Franco-Britisl forces with forces superior to the attacking armies. And still these divisions do no more than slow up the advance. Today it appeared that the whole strength of the French and the British attacking armies, was being British attacking armies was being made ready for another bolt to be hurled at the German line next week in a resumption of the concerted of fensive.

French Resume Thrusts
After a lull on the French front early in the week, made necessary by the bringing up to newly won positions of the French artillery and consolidation of gains won in the first week of Ni velle's general attack plan, the army under the tri-color was apparently in motion again.

To the north Haig's guns roared all along the line, while his Tommies pushed ahead yard after yard. The greatest pressure was apparently be ing exerted along the Arras-Doual roadway.

## Avers Teuton-Russ Pact Would Put Big War Burden On U.S.

Success of German Peace Propaganda In Land of Slavs Would Mean America Would Have to Hurl Millions of Fighters On to West Front In Endless Conflict

BY GEORGE MARTIN

WASHINGTON, April 28.-Help for Russia and solution of Irish question were the two in-mediate Herculean problems before the world war council of the

allies here today. There is reason to believe Brit-ish Foreign Secretary Balfour's initial report of the war parley, received in London today, will declare that informal inquiries have made it clear that President Wilson believes a speedy solution of the Irish problem will be one of the greatest steps that could be taken to advance the fight for universal democracy.

The American government considers Ireland a subject too deli-cate to make even informal suggestions concerning England's attitude. It has left the initiative strictly to England.

The promotion of world democracy phase of America's attitude dovetails with the Russian situation and plans to meet it.

### LLIES KEEP EVES ON NEW RUSSIA

England, France and Italy are keeping the closest possible watch on developments in the new de-mocracy. And while they are doing all they can to help it along, they look to the United States to take the brunt of the burden. Ultra-secret conferences

tween this government and the British and French commission heads and representatives of the other allies preceded and follow-ed the appointment of Elihu Root as head of America's Russian aid committee. While no official of an allied

government would talk concerning the Russian situation because they feel it is too delicate to discuss just now, suggestions here and there from representatives of the different governments piece their attitude together like this: The revolution has developed

two leading factions in Russiathe duma and the provisional com-mittee of soldiers and citizens.

### PROVISIONAL COMMITTEE FOR PEACE

The duma is thoroughly democratic, utterly opposed to a separate peace with Germany and on complete terms of understanding with the allies. The provisional committee, the more powerful of the two organizations among the people is not a unit either for the allied cause or for a separate peace with Germany.

Germany is exerting a gigantic propaganda to swing the committee to a separate peace. Germany is concentrating its efforts on the extreme socialists on the committee, among the people at home in Russia and among the soldiers in the trenches. The German propagandists ar-

gue:
"You in Russia have had your

(United Press Staff Correspondent)

revolution. It has been success-

ful.
"We in Germany are getting
"Make" our revolution under way. Make a separate peace with us. We are all brothers together and together we will throw off the autocratic yoke. Why should we fight each other? We have no quarrel."
SUGGESTIONS HIDE GERMAN

GOVERNMENT The autocratic German govern-

ment is hiding behind these suggestions. It will be for the Root commission to impress this on the Russian people.
"Nobody knows what the provisional committee will do," said

one foreign official today.
"And," he added, "heaven only knows when the war will end if

they manipulate a separate Germany's success in Russia, it is pointed out, would mean the necessity for hurling of millions

of American troops on to the western front. "Do not for a moment minimize," said another European offic-

ial today, "what a separate peace between Germany and Russia would mean to the United States. WOULD MEAN ENDLESS WAR
"It would mean that Germany

would be fed, supplied and equip-ped for endless war and that the allied blockade to starve Germany out would have gone for "It would mean that eleven

army corps, about a million and a half fighting men, would be swung into the balance against the British and French fronts. 'You can see how this would menace the remaining European allies. Then there could be only one answer for the United States. That answer would be millions and millions and millions of men.

"Upon America would depend the success or failure of the war on Prussianism "You would have to feed, equip.

munition and otherwise maintain your gigantic army in Europe.
"Nor would that detract one jot or tittle from your present prob-lem of feeding and equipping Europe under its present fighting

pioneer units of the Women's Auxiliary Army. They are clerks, house-maids and waitresses and are generally easy to look upon.

WASHINGTON, April 28.—The nation will raise its army by selective conscription.

The house so voted just before noon today. The senate will vote likewise before midnight tonight, barring the completely unexpected.

Anti-conscriptionists admit this. The house vote was 279 to 98 in favor of the President's and the war college's plan to raise at once an army of 500,000—for service at some future date in Europe if needed.

Miss Jeannette Rankin, the first woman to hold a seat in congress, voted against conscription. She cast her vote without comment.

The house vote was on the Kahn amendment to the army bill as reported by Chairman Dent's military committee. The Dent bill authorizes the President first to try raising an army in the old fashioned way by the volunteer system. Kahn's amendment turned the bill into what President Wilson and his war heads wanted—a straight out and out selective conscription method.

In the senate a strong effort was made today to pass the Roosevelt vol-unteer division amendment. Senator Lodge declared that the moral effect of the former president leading an army would be wonderful and held that it would not injure the universal service principle.

Rescuers Battle Against Big

Odds In Hastings Mine;

7 Bodies Recovered

The senate today adopted an amendment to the army bill prohibiting the selling and giving of liquor to soldiers and officers and any one connected with the army. An amendment by Underwood making this apply also to members of both houses of congress also was adopted, Underwood holding that there is "need of cool heads and judgment in congress as well as in camp. I do not consider myself better than the boys who will fight." Senator Thomas suggested including the members of the cabinet in the amendment.

It was announced that a bill will be presented soon gathering up and turning over to their countries aliens of military age.

All infantry, cavalry and artillery reserve officers will be ordered into service immediately, the war department announced.

Secretary Wilson today submitted to congress an estimate of more than \$2,300,000 for war expenses, including a million to guard and feed interned

The defense council is considering the extermination of stray cats and dogs as an economic measure. George W. Perkins today warned the agriculture committee that the na-

tion must assure the farmers labor and fix minimum prices or face a world senate passed an amendment authorizing the

President to make regulations concerning army prohibition.
In the house an amendment offered to set the age limit for military service from 19 to 29 years, instead of 21 to 40, was defeated.

## BENNETT PRINCIPAL SPEAKER UPON OVER- SUNDAY PROGRAM

## **BROOKS FLETCHER** FLAYS DEAD HEADS

Co-operation, Says Speaker, Accomplishes Wonders In This World

The Chautauqua program for to-night and Sunday, shows superb at-tractions, with Rev. William Rainey Bennett as the speaker both tonight

and tomorrow night.

It is well therefore to tell something about who William Rainey Ben-

nett is.

He is one of the masters of the platform. He has proven himself, a deep thinker. He has a striking and attractive personality. He always throws his whole body, soul and brain into his platform work.

into his platform work.

He has a striking and startling vocabulary to impress his message upon
his listeners. He is constructive. He
is positive. If his words are caustic
it is to burn out the dead cells that
the new may live.

He filled pulpits in three of the large
cities of the middle west, including
Chicago. He crowded his church with
listeners and them took up Chantangua

listeners and then took up Chautauqua and Lyceum work to increase his sphere of activity. His message helps the individual and the community.

Bennett has four striking subjects, "The Man Who Can," "Ye Dead," a lecture on community building; "The Master Thought," a lecture on the art of having a strong face and a fine body and beautiful soul; "Machines and Millionaires," a hopeful lecture of producing possibilities.

Musical Features

The musical program for tonight will be given by the rawaiian Sing-

Tomorrow afternoon Walter Jenk ins, distinguished baritone, is to be a feature, and he will give an opening One of the greatest objections women have to the extended motoring trips is that it is hard on the complexion. Also it is hard on the health, in general, they say.

'ins has an excellent baritone voice, of warm and rich quality.

A Sunday afternoon lecture will be

This given by Robert P. Carson Carson, a poor boy of the southern mountains, possessed only of a strong a swiftly moving car, from drying cut body, determined will and a keen the pores of the skin, the first cause mind, made up his mind to acquire an education.

Because he knew the pinch of poverty and the severe clash of struggles against ouds he early started in life to help others. What he had learned in his upward climb placed him in a

### With Malice Toward None By Henry James -

The Fading Sun Lecturing recently, a scientist re-marked that the sun, from which light and heat and other essentials are derived, will be out of business in 15,000. 000 years from the present. Too bad. By that time the war probably would over, and living on the earth once nore worth while.

The matter is even worse than the scientist says, for if the orb of day is fading so that in 15,000,000 years it will go out like the spark on a gutter-ing candle, long before then this globe would be too chilly, having exclusivean Arctic style of temperature.

Still there is some comfort in the thought that the scientist knows nothing about the matter. He can't tell when or how the sun was inducted into business, or when or how it is going to quit. For any information he has to the contrary, the sun in its present form may be eternal. So don't get scared

### DRANK AND TALKED TOO MUCH: IN JAIL

James Dougherty drank too much in Anaheim yesterday and talked too much in Santa Ana last night, and as a result John Ryan picked him up and took him to the county jail. Before meeting up with the minion of the law he had threatened to commit suicide on the part of the White House, and Bryan toward making them worthy of and he was booked on suspicion. This placed against him and he will be a guest at the county jail for the next thirty days. The jail sentence was passed in order to give the officers

## SYSTEMS ARE MERGED

Geo. B. Ellis, president of the Home Telephone Company, yesterday announced to the City Commissioners of Long Beach the consolidation of the Home and Sunset lines in that city. Directors have been summoned to meet Monday to ratify the agreement reached by the officers. The Home company will remain in control.

Whether anything definite has been done toward merging the companies in Santa Ana is not known here. The The physical valuation of the Home plant equipment and lines in this immediate vicinity was made some few weeks ago with, it is asserted, representatives of the Pacific taking part in the survey. This would indicate that consolidation here is under con-

## SANTA ANA

A man from Riverside who had formerly been a resident of Santa Ana, wrote a letter expressing his wish that a song might be written about Santa Ana. So, as we have a friend who writes verses—and can also write the music for the verses, if it is wished, we told her that Santa Ana needed a poem—so Miss Rose Sanders wrote the following:

Santa Ana

Santa Ana

"Oh stay," the multitude did cry,
"What means this banner in the sky?"
The answer came, "It is to tell
The finest place on earth to dwell." And that is Santa Ana.

Too late for me," an old man cried, But for my boy, my hope and pride, No doubt in such a place, he'd win. If I were young I'd sure begin Life in Santa Ana."

Santa Ana.

Just now is the time for you to seize
A home in Santa Ana.

## Keeping Yourself Well

## THE FIRST STEP

Usually the first indication of lowering of health is found in the bowels and liver. Something goes wreng—we eat too much, or work too hard—and the bowel action weakens or the liver is sluggish That heavy feeling on arising in the morning, dryness of the throat, with bad taste, a slight headache, dull eyes—all show that food has fermented in the intestines, and that the body is man-

ufacturing poisons instead of good blood.

Clear it all out. Give the stomach and bowels a fresh start. Encourage the fiver to go to work. Manalin does all of this, without griping or meckaning. without griping or weakening. It's the ideal laxative and liver tonic, because it follows Nature's plan, without discomfort, inflammation or forming a habit. Constipation may be overcome with

ASKS \$15,000

Aftermath of Crash at Santa Fe Crossing In Los Angeles Filed

Suit for \$15,000 damages was brought today by Sylva J. Schugeld against the Santa Fe railroad. Action is based upon the collision of an auto-mobile and a Santa Fe engine at an East Seventh street crossing, Los An-

geles, on Oct. 8.

The plaintiff asserts that the Santa Fe gateman lifted the gates when the engine was approaching, and allowed the automobile from Santa Ana to proceed, and that the engineer was not ringing the bell of the engine.

The plaintiff was caught in the wreckage, which was dragged eighty feet, and received permanent injuries to her nerves that were injured.

IN THE JUSTICE COURT

## ONE'S FACE TAKEN AS ENOUGH PROOF

Kaplan Went to Jacobson's Place to Say Something, Said It-Bing!

"I want a doctor's certificate to show my injuries," insisted H. Kaplan, participant in a junk man's battle, to Deputy District Attorney W. F. Menton.

"You don't need any certificate," said Menton. "Your face is enough." Kaplan had all of the looks of a man who had been beaten up. There were blood, bumps, knobs, red spots, blue spots and skinned places all over his anatomy from his neck up. What injuries may have been below his neck were not in evidence.

And the irony of the whole thing, the meanest act of the day of tragedy was when Deputy District Attorney Menton had the man whose face was marred arrested for disturbing the

Ordinarily, when two men scrap it is the one who gets licked who has-tens to the courthouse to get the other fellow arrested. The victor is satisfied to leave the authorities alone.

There was a call for city police, constables and sheriff's deputies yesterday afternoon to Jacobson & Berman's junk shop on East Fourth street. H. Kaplan, rival dealer, whose throne is on West Fifth street, had gone into the place. There had been trouble over prices paid by the rivals for some old brass. Kaplan went into the place to say something to Jacobson. He said it. What he said made Jacobson fight, and before Kaplan Jacobson light, and belief kapital could say it again he was sorry he said it once, for he was in the midst of a shower bath of right-handers and left punches. Jacobson worked his rival over thoroughly, completely and honestly.

Berman was telephoning for officers.
"He tried to kill me," wailed Kap-

"He came in here to make trouble. and he started something he could not finish." was the answer, and after the thing had been furiously debated mid many gestures, Menton decided that Kaplan needed arresting. Kap-

swear to a complaint.

Kaplan says that Jacobson tool him into a room, threatened to kill him, and threatened to kill two or three men who worked for him if they told Kaplan's side of the fight to the officers.

May Be Man Wanted

Last night city police arrested a man who said his name was James Daugherty. He had been begging. At the county jail the sheriff's deputies looked Daugherty over and came to the conclusion that he fitted the description of Henry McCarthy, alias Cohen, wanted in Sacramento for grand larceny and bad check passing.

## Everybody Reads Them Daily

It would amaze you to know how persistently our subscribers read the Register "Want Ad" column.

We sincerely believe that our "Too Late to Classify" column is read by everybody who takes the Register.

We base this assertion on the great number of testimonials received in our office every day from people who have used Register "Want Ads"-which we know to be the most potent selling agency at the disposal of people in this community.

Here are three sample testimonials:

Mrs. T. A. Davis, 1323 East Third St., advertised 10 laying Buttercup hens and a rooster for sale. Early next morning she sold the whole lot to the first caller. "People kept coming all day," she added, by way of appreciation.

Otto G. Kan, 610 South Ross, advertised some furniture, enough for three rooms. By 7:30 on the evening of his Register "Want Ad" insertion he sold the furniture.

J. W. Osborn advertised some colony houses and feed boxes for

"I received inquiries near and far, one coming all the way from Capistrano," he enthusiastically testified.

## POINT AT ISSUE POLY IN S. A.-ORANGE FRAY BOBS UP ONCE AGAIN

## Potter, Orange, During Game With Huntington Beach Once More Boots Ball County Flag Santa Ana's If Mother Colony and Beach Crews Are Walloped

to first booted the ball.

Umpire Smith called Potter out. The beach coach contended that the play should have been called a foul, which would have allowed Potter again to bat, this contention being thee same as that made by the Orange men in their game with Santa Ana. Huntington Beach thus stands with Orange as against Coach Smith and this may be taken as an indication of how the Interscholastic Federation will decide the protest of the Santa Ana Coach when the question comes up for settlement, probably next week.

Loescher pitched yesterday for Oracle and the salt was allowed to bat again. He got on base through an error and eventually tallied the typing marker. Without the run the local institution would have been returned the visitors in nine spasms, 2 to 1.

"Blondey" Morrison chucked a beautiful game against Orange, fanning thirteen and losing five others when Holzgrafe, carting a badly wrecked throwing hand, dropped as many last

### Miniature Reproduction of Bear Valley and Roads in Livesy's Window

If you want to get the "lay of the land" for trout fishing in Big Bear and Little Bear valleys, "mosey" down to the Livesey Bike Shop and see the reproduction of roads, canyons and mountains in the window, done with sand, salt and sugar.

Jimmy Livesey and Percy Preston are the artists who grasped the idea and executed it to the perfection displayed in the window.

The entire east window is given over to the miniature reproduction of the canyons, roads and lakes. Points where good fishing is to be found are indicated by cards bearing the information.

The roads indicate the routes through the Santa Ana canyon by way of Riverside and San Bernardino and by way of Pomona. It is a clever piece of work and in-

spection will convey the fine concep-tion the young artists have of the valley, canyons, roads, mountains, lakes and streams.

The season for angling for the speckled beauties in the various streams of Southern California will be on in earnest next Tuesday. Monday will find many trout parties hik-ing towards the streams to be on hand early Tucsday morning for the first "whack" at the fish. The limit is fifty fish or ten pounds and one fish, Prizes to Anglers

Many anglers are evincing a great interest in the prizes for the first man reporting to the Register office with the limit. The prizes are offered by

different sporting goods houses in the city and are worth trying for.

The first angler to bring to the Register office, this season, the first limit of trout may take his pick of any of the following four prize awards. The second can have his choice of the three remaining prizes, the third of

Conditions of Roads Leading to Scenic Locality Told By So. Cal. Club

BY ALBERT MARPLE

Say, Mr. Motorist, if you intend, sometime during the coming summer, to enjoy a trip to Grand Canyon, that wonderful national monument, there are a few points about the route be-tween Southern California and the canyon that might prove of interest to you. A scouting crew of the Automobile Club of Southern California made a trip from our section to the canyon recently and the members state that never before in the history of touring have things looked brightof travel between this section and the conyon is concerned.

There are hundreds of motor owners living in this locality who are anxiously awaiting the signal that between their own back door and Grand Canyon is open and ready for travel. It seems as though every motorist who visited the canyon from Southern California last year is planning to "do the same thing over" this season, and that he is calculating on taking his neighbor along with him.

Old Trails Route O. K. The touring department of the club says that, generally speaking, the National Old Trails Route between Los Angeles and Williams, Arizona, is, will be but a matter of three or four weeks before this route will be in is possible to restore anima- the drowning accidents attributed to ter shape than it has ever been. Along tion after a body has been in the water ten and even in some cases fifteen experience has taugh him that it is minutes," said Killick in addressing momentary mental paralysis resulting the Boy Scouts. "After the body is from too intense concentration of will start just as soon as the mud disappears. One feature of the journey between here and Grand Canyon is that it includes 239 miles of desert country, this lying between Victorville and Kingman. At this time this desert road is in good condition and should not prove troublesome to any machine. The piece of road between Amboy and Needles has just been graded and oiled and is in better condition than it has ever before been. The road between Yucca and Kingman is pretty rough at this time, but the chances are that as the days wear away this piece of highway will grad-ually be improved.

To Replace Signs The Automobile Club has just com-leted arrangements whereby the signs which since last season have een damaged or lestroyed by weath er conditions and otherwise, will be replaced. More than 100 signs will be relocated and although the motorist could make his way to the canyon by the aid of the signs that are now standing, there will be absolutely no eason for the driver who is observ ant losing his way when the signing system to the rim of the canyon has These signs been completed. now in the course of construction The work of replacing the road indi cations will begin about June 1, and is estimated that the operation will

take the crew about fifteen days.

Judging from present road conditions it will probably be May 15 be fore motorists of Southern California can safely start on the Grand Canyon trip, while the motorists who defer starting until after June 1, will run a great deal better chance of meeting with ideal road conditions. At certain times of the year a week will make a wonderful difference in the condition of this particular stretch of the National Old Trails Route, as well as the road from the main highway to the canyon's rim

Four Days' Journey

The trip to the canyon by auto is considered a four days' journey. The first night the motorist reaches Barstow, the second night is spent at Needles, while Williams, the point at which the Grand Canyon road. which the Grand Canyon road or the solution inside the branches from the National Old Trails

FUEL AT KANSAS CITY
KANSAS CITY, Mo., April 28.—Gasoline-or rather, motor fuel-was the subject of discussion and conversation at the fifty-fourth meeting of the American Chemical Society at Kansas City, Mo., April 10-14. The chemists, in their formal papers and privately told how they were trying to meet the needs of the motor industry, as well as of the war situation and the in-field athletics representing thirty-five as of the war situation and the industrial development, with respect to
petroleum and coal products. They
pointed to the rapid increase in the
production of gasoline by the cracking
process, which Dr. Waiter F. Rittman
of Columbia University said would
reach a billion gollons in 1918.

The observated framework of the California Interscholastic Federation.

## CHANDLER SIX \$ (395

## See How the Chandler Checks With High-Priced Cars

Wherein and how does the Chandler excel other cars in its price field, you may ask. In many ways it excels and in all ways taken together it excels tremendously.

Now see how the Chandler checks with eight of the best known high-priced cars in seven features selected as being characteristic of high grade design and most excellent service.

No. 1—Aluminum Crank Case.

Packard, Pierce-Arrow, Winton, White, Stutz, Mercer, Cadillac

No. 2—Aluminum Crank Case, which ties the frame of the car together at four points at front and rear sides of the motor, giving perfect rigidity to the motor mounting. Packard, Locomobile (bronze crank case), Winton, Stutz, Mercer

No. 3—Silent Chains for Driving Motor Shafts. Packard, Winton, Mercer, Cadillac

No. 4—Annular Ball-Bearing Transmission. Packard, Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer,

No. 5—Annular Ball-Bearing Differential. Packard, Pierce-Arrow, Locomobile, White, Stutz

No. 6—Annular Ball-Bearings for Rear Wheels. Packard, Locomobile, White, Stutz, Mercer

No. 7—High Tension Magneto Ignition. Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer

## CHANDLER HAS ALL THESE FEATURES

Now, what about other well-known cars in the Chandler price field? Of six other medium-priced six-

One car, listing at \$1650, checks with the Chandler in only two features;

One car, listing at \$1495, checks with the Chandler in only two features; One car, listing at \$1385, checks with the Chandler

in only two features; One car, listing at \$1250, checks with the Chandler in only two features; One car, listing at \$1325, checks with the Chandler

in only two features; One car, listing at \$1725, checks with the Chandler in four features.

Not a single one of the six makes of medium-priced Sixes referred to offers you High Tension Magneto Ignition. The Chandler offers you Bosch, recognized the world over as the best ignition system. Not a single one of them offers you the silent chain

drive, though one of them, in a higher-priced model (\$2225), incorporates this feature.

Chandler checks with the high-priced cars. Chandler performs with the high-priced cars.

The manufacturer of one Six can make just as big claims as any other. The Chandler Company likes to deal in facts.

For years the Chandler Company has made the Chandler a fact-car, not a claim-car. Claims sell a lot of cars, but facts sell more cars,

just as fast as the buyers learn the facts. The Chandler is honestly built and moderately priced. There is no other Six selling at anything like the Chandler price which will give you so much depend-

So many recognize its superiority that the Chandler has earned a front rank position in the industry. So many recognize it that twenty-five thousand buyers this year will choose the Chandler as the Six to be preferred above all Sixes.

### U. S. MAY PUT GUARDS **AROUND MOTOR PLANTS**

WASHINGTON, D. C., April 28.— The blowing up of the Eddystone, Pa., shell-making plant and the reported attempts to destroy manufacturing establishments of various kinds which might be engaged in making supplies for the army and navy may lead to the employment of troops to guard such establishments, motor car and otherwise, at such times as the Gov-ernment begins drawing on these plants for their output.

Under the policy of the War Department, which is to give out to the public no advance information touching the uses to which different units of troops are to be put, troops now are being employed—state troops called into the Government service—to look after certain private plants devoted wholly or in great part to the manufacture of munitions. It is anticipated that any plot aimed at the crippling of the Government in its war opera tions will be aimed first at those establishments which manufacture arti cles of a death-dealing character, and not at such plants as turn out incidental, although important, adjuncts to an army, such as motor cars, trucks

## **CUT IN GAS PRICE IS** EXPECTED IN TEXAS

AUSTIN, Tex., April 28.-If the price of gasoline continues to be governed by the quantity of production and price of crude oil, a reduction may be expected soon. The credit balance quotations, or the price paid for crude oil at the wells by the purchasing companies in the different dis-tricts when the same is not sold under contract show slight decrease in prices, due, it is stated, to the increase of production. The daily out-put of the Gulf coast oil fields is now about \$5,000 barrels, which is greater than at any time during the last two years. The price paid for oil in these fields range from 90 cents to \$1.05 a barrel. The light crude oil of the North Texas fields is now selling at \$1.70 a barrel.

## WAR NEEDS EFFECTING MOTOR CAR INDUSTRY

DETROIT, April 28.—Industrial preparedness and war needs are gradual-y affecting the motor car industry, though motor car production continnes at a normal rate. The great majority of manufacturers still await in-structions from the Government, and it is believed that many will not be asked to participate in the preparedness operations. Some already are engaged in the manufacture of munitions, army trucks and airplane engines, but have not been forced to reduce their production of motor cars or parts.

As the situation now stands there are four large motor car makers either manufacturing or preparing to manufacture trucks and airplane engines, three truck manufacturers making army trucks and several parts concerns manufacturing shells, gun-sights and other military necessities. Of these but one parts maker has reduced normal production to allow for

Anglers Headquarters

The trout season opens May 1. On that day there will flock to the various trout streams thousands of anglers. Santa Ana will furnish its quota of enthusiasts. The trout brooks in Orange county will be veritbrooks in Orange county will be veritably swarming with sportsmen seeking to "get the limit" on opening day. The trout fishing game needs no boosting. It is a sport so popular that it draws each year more and more devotees. Nevertheless anything that will tend to add spice and water the game is welcome. excitement to the game is welcome, as all anglers will agree.

as all angiers will agree.

In order to inject something of ginger into the pastime on opening day, this season, the Register and three sporting goods dealers of Santa Ana, namely, A. E. Hawley, the John Mc-Fadden Company, and Livesey & Preston have decided to offer prizes for the first four limits caught in Orange county.

The first angler to bring to the Reg-

ister office, this season, the first limit of trout may take his pick of any of the following four prize awards. The second can have his choice of the three remaining prizes, the third of the two remaining prizes and the fourth will get the last prize.

John McFadden Company will give one Steel Trout Rod, valued at \$4.00, or choice of merchandise to the same amount.

Livesey & Preston will give \$3.50 in merchandise. A. E. Hawley will give \$3.00 worth

of fishing tackle.

The Register Publishing Co. will give one 6 months free subscription.
All trout limits must be brought dl-

rect to the Register office. What is a limit of trout? Here's what the State game law says:

"Fifty fish or, ten pounds and one fish, or one fish weighing ten pounds

or over per day."

The law says that fishing must not begin before a half hour before sunrise, or continue beyond a half hour after sunset. An almanac will tell you what time the sun rises on May 1 and what time it sets.

Get out and do your level best on opening day. That, perhaps, is need-less advice, for every trout enthusiast will be "on the job" to the limit of his ability, not only on the day the season begins but on every other day he can get away to the streams. Many of you will undoubtedly catch limits, on May 1, but the opportunity to cap-ture one of the prizes offered by the Register and the sporting goods dealers should stimulate you to put forth every effort to catch one of the FIRST four limits.

Trout fishing this season promises to be better than for several years past. Reports from every stream in Orange county are most encouraging. Trout will be found in adundance in Trabuco, Silverado, Black Star, Modeska and San Juan streams.

## Our Offer to Anglers Is a Whole Outfit for \$3

See this \$3.00 outfit. It consists of rod, reel, line, hooks and bait.

We carry the largest stock of trout poles and reels in the city.

Licenses issued.

TEXTAN is a fibre sole— NOT rubber. It is water-proof, stub-proof, flexible, matches your shoes perectly and outwears any leather sole you ever wore. Ask your dealer.

# AMERICAN FLAG

"An American flag with every car is the latest patriotic step taken by the Cole Motor Car Company of Indianapolis," says Edd Armstrong, lo-cal distributor, at 421-23 West Fourth.

"Every car that leaves the Hoosier plant has the national emblem in a prominent place on the windshield and thousands of these banners have been sent to Cole distributors and dealers in every city in the country so that every owner of a Cole car may procure one for the asking.

"The windshield emblems show the American flag unfurled to the breeze. They may be pasted to the glass and are visible either from within or outside of the car.

"Recently the Cole Company adopt ed American Flag Blue as the stand ard color for its all-season Springfield models. The color reproduces exacty the shade of blue that, according o records, constituted the field beaind the stars in the original flag nade by Betsy Ross during the Republic's infancy.

"The work of the Cole Motor Car Company in inspiring patriotism among motorists has been the object of favorable comment everywhere.

### SPEED LIMIT FIXED AT SALT LAKE CITY

SALT LAKE CITY, Utah, April 28-Inder the new Utah state law which loes away with "reasonable speed imits" and allows municipalities to lx their speed limits, the city of Salt ake has under consideration a revised traffic ordinance. During the period of "reasonable speed" the justices and police court judges have ined motorists who drove, faster than 25 miles per hour in the uncongested listricts. The new ordinance, in the ands of the city attorney, would cut his to 20 miles per hour and make he limit 8 miles across intersections, 5 miles in the congested business listricts and turning corners, 12 miles

### **WOULD GIVE RITTMAN** PROCESS TO PUBLIC

WASHINGTON, D. C., April 28enator James of Kentucky has offerd a resolution authorizing the Secre ary of the Interior to assign the so alled Rittman process for improvenent in the manufacture of gasoline o the people of the United States and make the process immediately vailable for public use.

The Studebaker Series "18" car is an evolution and per-

fected piece of mechanism. That is why you can FORGET many little things about Studebaker that you have to Re-

MEMBER and care for on other cars not so highly devel-

will work in any climate, at any temperature, providing you keep water in the radiator.

For instance: the cooling system of the Studebaker car

The lubrication system of a Studebaker car will work

unfailingly in absolutely all conditions, if you will remember

The electric lights, and the electric starter will never fail you if a little distilled water is put in the battery from time

You will not have to paint the body frequently to keep it looking nice, because Studebaker's finishing work is the sum

You won't have to renew the leather on the cushions, be-use experience has taught Studebaker how to select and

You won't need to worry about making a grade with a Studebaker car, because the Studebaker motor has been per-

ected into the most powerful motor in the world in ratio

These are the things that make it a delight to own and run a Studebaker car, and cause you to say, "I never have any trouble with it."

grind for both driver and car, and both are standing the pounding in fine

The endurance and speed test started Tuesday night. The car completed its third round trip this morning. Layton Brothers report the delivery of Maxwells this week to C. B. Bux-ton, 1608 North Main, this city, and

### FORD WAIVES TRACTOR RIGHTS TO BRITISH

DETROIT, April 28.—It is reported here that Henry Ford, at the request of the British Government, has waived all patent rights on his farm tractors and has cabled the specifications to England so that Great Britain can make tractors for use in the British Isles and in France. It is believed by Machine in San Berthat the tractors will assist greatly in increasing the farm crop produc-tion in the Entente countries.

It is also announced that Ford hopes to have thousands of tractors ready cisco to Los Angeles at night, with for use in the United States and Caninder car was that of the Maxwell in one man and one car, in a speed test and one of the motor car factories are against the Southern Pacific Lark, is and one of the motor car factories are san Bernardino on Tuesday of this

by Machine in San Bernardino Test

One of the most spectacular feats of performance ever made by a four-cyl-inder car was that of the Maxwell in

All cars which came in ahead of the Maxwell were either six or eight cylinder cars, whti high horsepower ratings. The Maxwell finished only nine seconds behind the third machine -a big six-cylinder, fifty-horsepower PARIS, April 28.-Section sixteen car, and forged ahead of all other

the hour. When the Lark starts the of cars in the American service up to carried full equipment except glass front, and no special adjustments or tuning up had been made as it was de-cided to enter the car only at the last

To those unfamiliar with the "Rim o' the World" course, it may be said that this course is a steady, stiff climb from one end to the other. There are no "rests" or "breathing places" in it and it offers everything which can be found in the way of sharp curves and hairpin turns.

"Following closely upon the great 24-hour run made by another Maxwell car a short time ago in which all rec ords for the round trip from San Diego to Los Angeles were broken, and a distance of 742 miles were trav-ersed in less than 24 hours without a motor stop, this hill climb further establishes the Maxwell as the greatest four-cylinder car ever placed on the market," said Ernest Layton, of Layton Bros., local Maxwell dealers, yesterday. "During the past few years the Maxwell has won record after record all over the country in hundreds of contests.

"These embraced not only speed, but hill-climbing tests, obstacle races, en-durance runs, economy contests, and the great 22.22 mile Maxwell non-stop run which gave the Maxwell the world's championship non-stop belt and stands as the greatest test of a motor car ever made in the history of the automobile industry.

"A few months ago a hill climb contest similar to that made in San Bernardino on Tuesday was held on the famous Glant Despair Hill near Phila-In this contest seventeen different makes of cars were entered and the Maxwell carried away two first prizes, two second prizes and a fourth.

The Maxwell still holds, after more than two years, the record for a speed run up Mt. Wilson. On January 2, 1915, Billy Carlson made this run in 29 minutes, 1 second, the fastest time ever made from base to summit of this tortuous climb.

"All of these Maxwell tests are useful in showing just what goes into the ful in showing just what goes into the stock Maxwell car, and in giving graphic evidence of what "Maxwell Quality" is. It is in order to maintain this quality in the face of rising costs of materials that the price raise of \$30 which takes place next Tuesday has been announced, and it is predicted that on Monday, the last day of the present low price, a greater number of Maxwell cars will be sold and delivered than have ever been sold in one day of any make of autosold in one day of any make of auto mobile in the entire history of the in

as well as of quality,"

### WAR COLLEGE GIVES **ENCOURAGEMENT TO VOLUNTEERING PLAN**

WASHINGTON, D. C., April 28.-Motor car and motor truck owners can volunteer with the understanding that their services are offered for gencies, according to the plans the American Automobile Association is considering with the encouragement of the War College.

The War Department takes the po sition that it can assume no obliga-tions of any character, but is frank to express its approval of the scheme, provided it is in harmony with the organization plans already worked out by the army officers. It also was stated at the War Department that such co-operation with the Government on the part of the car and truck Loans, Insurance, Notary owners will not be under the direct auspices of the Department.

War Department officials do not anticipate that it will be come necessary to commandeer private cars for war use, as the supply of both motor cars and trucks suitable for such work is more than adequate at present.

### GASOLINE WAR RISE IS EXPECTED SOON

NEW YORK, April 28 .- Gasoline prices are expected to rise soon irre-spective of what effect the war may have on the Government purchases. Domestic consumption of gasoline is not yet under the influences that operate during the later spring and summer months, when the use of gasoline for touring will be at its greatest. However, it is expected that there will be a large increase in the consumption this year, while a further expansion of the gasoline output s problematical, practically assuring

# IAN WHY PLEASED

J. T. Van Why, of the Santa Ana Electric Company, is perfectly satis-fied with the business developed since he opened the electric garage at the corner of French and Third streets. Business has been good and a total of seven electrics have been placed in the hands of new owners. The de-liveries were to Mrs. A. J. Crook-shank, Mrs. M. M. Crookshank, Mrs. R. T. Harris, Mrs. C. E. French, Mrs. F. J. Rogers, Mrs. J. H. Rankin and Miss Stebbins.

"If you would know motor travel in "If you would know motor travel in its finest form, ride in a Detroit Electric," cays Van Why. "You move a lever forward—your power is on. Silent, supple, flexible power. The car runs easnly, drives straight, grips the road. At slow or high speed you ride smoothly. You thoroughly enjoy every moment, every mile. Now move the lever back—the power is off. Nothing could be more simple. You masing could be more simple. You master the driving of a Detroit Electric on the first trip.

"Plus the efficiency of its power plant is its freedom from need of attention. There are no frequent repair bilis—no recurring lay-ups in the garage. There is nothing to get out It is at your service practically all the time.

"It is the ideal car for the women. It is the ideal car for the business man—quick and efficient."

The motorist of Southern California must be educated to cut himself loose from the "apron strings" of his city or county and become familiar with other and different scenes. He must be induced to "get out on the road"become a tourist.

Automobiles have won popular favor as no other achievement in the brilliant history of mechanical inven-tion, because they open to man the pleasure of quick and comfortable

Roads throughout California have been wonderfully improved since the motor cars began appearing in numbers on the highways. Every year the construction of new roads in-creases. Each new section of roadway means added joys to the pleasures of the motor tourist.

"The automobile," says Arthur Brisbane, "gives you the nation for your park and pleasure grounds. It is the greatest addition to human happiness

Through its National Touring Bureau, the B. F. Goodrich Company has smoothed the road for motorists in

kept busy all seasons of the year.

### **ENGINEERS POSTPONE** MEETING ON ACCOUNT OF WAR CONDITIONS

CHICAGO, April 28.-War conditions resulted in the annual summer meeting of the Society of Automobile Engineers scheduled to be held the last week in June at Ottawa Beach. Lake Michigan, being called off by the council of the society.

## The Wise Autoist

comes here; then he recommends the benefit of our Radiator Windshield repairing in the run. Our work speaks for itself and our prices are wholly in league

AUTO METAL SHOP.

Phone 1457. 211 West Fifth.

### POWERFUL A CAPABLE

Performance! Quick, vigorous pick-up. Smooth pulling power. Flexibility. Again and again has the Detroit Electric proved itself possessed of an unusual measure of these keynote characteristics of the ideal motor car.

It carried a full passenger load to the top of Pike's Peak. It performed with ease on the steep hills of Ithaca, New York, in a series of hill-climbing tests conducted there. In Kansas City it is daily matching the performance of the costly multi-cylinder cars on the hardest hills.

Best of all, Detroit Electric performance is invariable in its quality. From day to day, month to month, season to season, it maintains its smooth power-flow, its swift pick-up, its rare flexibility. Its mechanism is so simple there's nothing to need constant attention, nothing to be continually "tuned up". Repairs and replacements are of rarest occurrence. It is a staunch, able car.

And yet it handles easily, is simple to operate, can be driven by any member of the family with equal dexterity. So it is an all-family car as well as an all-year car. And low indeed is its upkeep cost compared to any other car of equal size and power. Prices

Detroit Electric
